2. Ch 1, **10 dc into ring**
3. Pull tight to form a small round ball
4. Sl st into first dc
5. Fasten off, leaving a **long tail** for sewing

### Tip:

For extra fluffy flowers, gently brush finished balls with a pet slicker brush.

## Stem

1. Cut floral wire to desired length
2. Attach green/yellow yarn with a slip knot
3. **Dc tightly around the wire**, covering it completely
4. Fasten off

## Assembly

1. Arrange yellow balls along the **top third of the stem**
2. Sew on in **small, uneven clusters**
3. Allow some flowers to sit higher than others for a natural look
4. Wrap a few stitches of green yarn around the base of the cluster to blend into the stem

## Notes

- Mimosa flowers grow in **loose clusters**, not evenly spaced
- Bare stems look most realistic
- Multiple stems together make a beautiful bouquet
